To whom it may concern:

Re: Randy Roberts

I have known Randy for over 5 years and have used him on many different occasions.

He has worked in my restaurants and my home. He has been involved in a number of different assignments ranging from replacing and adding new lighting fixtures throughout my establishments to wiring the new A/C units that was very much needed at that time. Randy also wired my new deli shop located in the Hamilton pharmacy. This work included wiring the heating ovens, extracting fans and counter top receptacles and lighting.

I'm very happy with his work ethic and completely trust in his work.

I have called on Randy on a number of emergencies, and I always will.

Sincerely,

Holger Eiselt
Managing Director
